

# Create Parcels and Leases

The definitive guide to creating new parcels and adding leases to existing parcels in *Assessor2k*.

## Create Parcels

1. In the Search Results form, choose “(\*) Property,” then click [New Parcel].
2. The Property form will open to a blank screen. Click [Add].
3. The Property form will display empty data fields.
4. To achieve the **bare minimum** required to add a new parcel, perform the following in the [Parcel] tab:
  1. Enter Twp/Boro
  2. Enter Tax Map
  3. Enter Land Use
  4. Click [Ctrl #] button
5. You can now search for the new parcel in the Search Results form. Make sure you enter the following additional parcel information on the Property form:
  1. [Land] tab
  2. [Dwellings] tab
  3. [Auxiliaries] tab
  4. [Assessment] tab
  5. [Ownership] tab
  6. [Drawings] tab
  7. [Photos] tab
  8. [C&G] tab
  9. [Notes] tab

## Add Leases to Parcel

1. From the Master Menu, click [Add Leases to Parcel]. You can find it under the "Merger & Subdivision" grouping.
2. A small form will open. Enter the following, then click [OK]:
  1. Parent control number
  2. Number of leases
  3. Land use code for the leases
3. You will receive a confirmation message once the leases have been created.
4. You can view your newly created leases by opening the parent control number in the Property form, and clicking [Lease List] on the [Parcel] tab.
