AvgBal

This is the average balance function. It returns the daily average balance of a GL account for a given month (or span of months).

%InlineCode{AvgBal(AcctNum, AvgBalDate, *PosNeg*, *StartDate*)}%

AcctNum

The GL account number or TFR line number. This must include any applicable company abbreviations.

```
"1010-000"
"1010-000CSB"
"SC110"
"SO11"
```

%fineprint{Used in: AvgBal, Balance, Budget, Description}%

AvgBalDate

The date that represents the **month and year** for which to compute the daily average balance (when used **without** the optional StartDate parameter).

```
"3/31/2009"    Returns the daily average balance for 3/1/2009 through
3/31/2009, inclusive
 "3/1/2009"    Returns the daily average balance for 3/1/2009 through
3/31/2009, inclusive
"3/17/2009"    Returns the daily average balance for 3/1/2009 through
3/31/2009, inclusive
```

The date that represents the month and year **through** which to compute the daily average balance (when used **with** the optional StartDate parameter).

```
"3/31/2009", with StartDate of  1/1/2009    Returns the daily average balance
for 1/1/2009 through 3/31/2009, inclusive
 "3/1/2009", with StartDate of 1/31/2009    Returns the daily average balance
for 1/1/2009 through 3/31/2009, inclusive
"3/17/2009", with StartDate of 1/12/2009    Returns the daily average balance
for 1/1/2009 through 3/31/2009, inclusive
```

%fineprint{Used in: AvgBal, FedRptAvgBal, LineAverage, LineAverageRound}%
