

CallRptDescription

This function returns the full description of a Call Report concept line based on the provided concept code. The source for this data is the G&B Call Report program (not the G&B GL program).

```
%InlineCode{CallRptDescription(Concept)}%
```

Example Usage

- `%InlineCode{=CallRptDescription("RCON0010")}` Returns the description for concept RCON0010.

Required Parameters

Concept

The 8-character alphanumeric Call Report concept code.

```
"RCON0010"  
"RIAD4107"
```

```
%fingerprint{Used in: CallRptDescription, CallRptValue}%
```
