The Unpaid Bills button will print bills for those that remain unpaid. Real Estate and PerCapita/Occupation print separately. We have placed the address on the bill to show through a window envelope after folding.

An asterisk (\*) appears next to the bill number for properties that are for sale by Tax Claim. Unpaid bills can be selected by zip code,

leave this field blank to print all unpaid bills.

## **Unpaid Labels/Env**

Unpaid Labels/Env will print labels or envelopes for unpaid bills.

## Paid/Unpaid Totals

Paid/Unpaid Totals prints a summary report of the current amounts of paid and unpaid tax bills. The amounts on this report will correspond to your duplicate when you receive the data file but will change as you add bills or change amounts.

#### Tax Totals

Tax Totals also produces a summary report. The amounts on this report will correspond to your duplicate when you receive the data file but will change as you add bills or change amounts.

#### **Collection Totals**

Collection Total provides you with tax totals collected between dates that you specify.

#### **Homestead Totals**

Homestead Totals provides counts of the paid/unpaid bills entitled to the Homestead exemption.

#### Late Receipts

Late Receipts displays payments recorded between two user specified dates that were posted after their due date. Everyone realizes that some payments will be recorded after the due date because of mail delays or for other reasons so the inputs include a Grace Period that will cause the report to ignore payments recorded within that many days of the due date. The report displays payments where the Payment Date is after the Start of Face for discount payments, after the End of Face for face payments, or after the respective installment due date for face installment payments.
