## Select New File

Click [Browse...] to choose a different electronic file. If you have a .csv file, you can change the file type via the drop-down in file explorer.

## File Has Header Row

Checking this box will remove the first row in the file during the import process. This is to handle electronic files that have a "header" row.

For example:

- CtlNumber, PaidBy, Bill, PaymentAmount

Would be examples of column names if a file had a "header row."
