File Has Header Row

☒ File has header row

Checking this box will remove the first row in the file during the import process. This is to handle electronic files that have a "header" row.

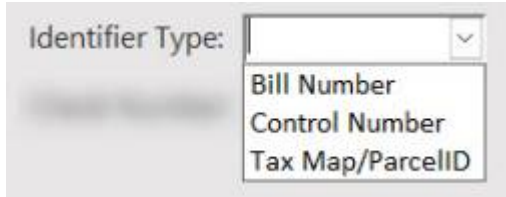

For example:

- CtlNumber,PaidBy,Bill,PaymentAmount

Would be examples of column names if a file had a "header row."

If in doubt, you can see how checking/unchecking the box will affect the options in the identifier combo boxes. If you don't see any header row, you can leave this box unchecked.
