

Updating the Program

The simplest way to update the program is to use the "Check for Updates" button at the top of the program:

If the ribbon is collapsed, you may not see the "Check for updates" option. In that case, you will have to click on "Help" first:

If you see the following message, then it means you do not have to update. It won't hurt anything to update again, though, so you can click [OK] if you want:

The download should start automatically.

If the download fails, there may be an issue with your antivirus program. Follow [these instructions](#) instead. Otherwise, continue with the remaining steps on this page.

You will see a progress window during the download:

When the download finishes you will see the following window. Click the [OK] button:

Windows will then ask if you want to allow the TaxColl2k setup program to make changes to your computer. Click [Yes]:

The update program will run without requiring you to click anything:

When it's done, you will see the following confirmation message. Click [OK] and you will be taken back to the Main Menu:
