Updating the Program

The simplest way to update the program is to use the "Check for Updates" button at the top of the program:

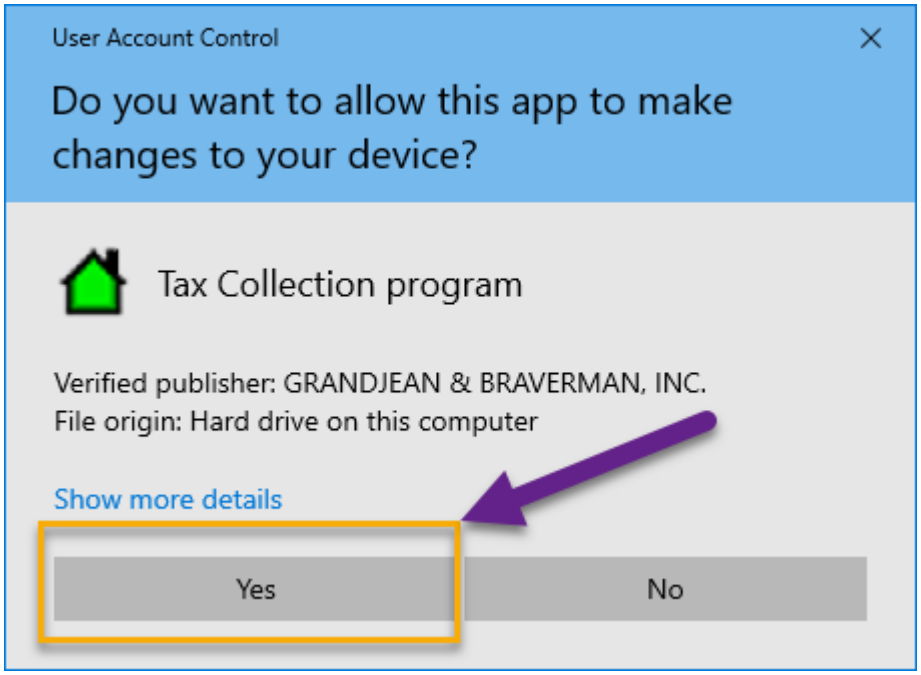

The download should start automatically. You will see a progress window during the download:

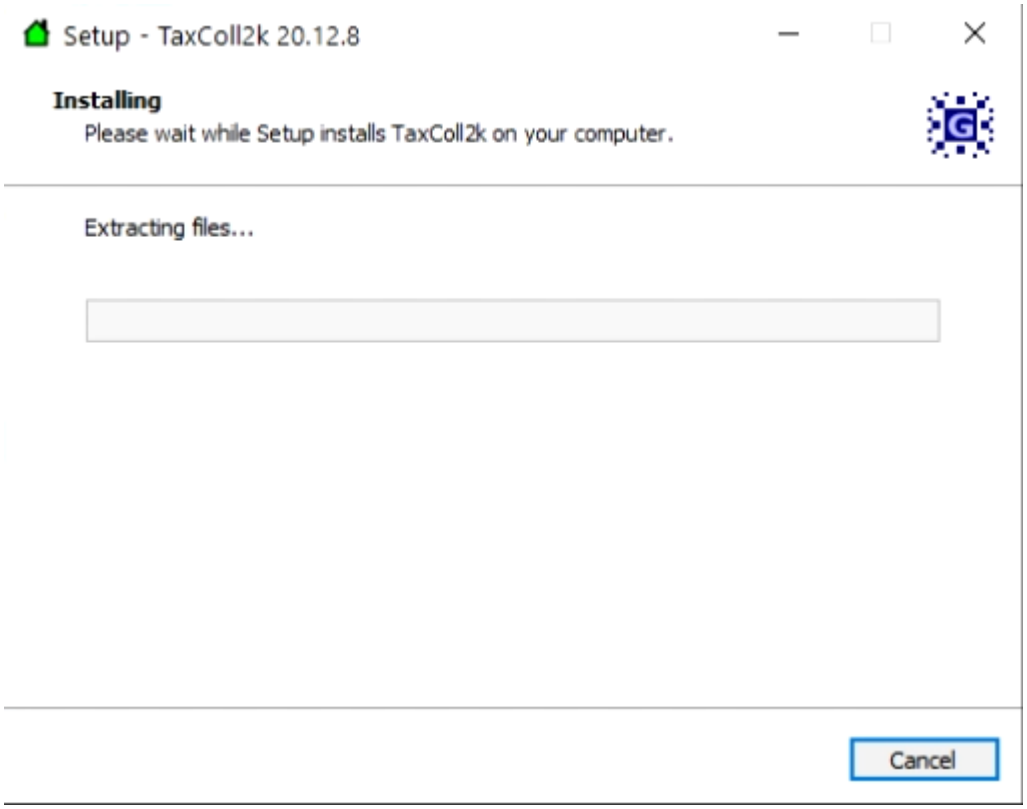

When the download finishes you will see the following window. Click the [OK] button:

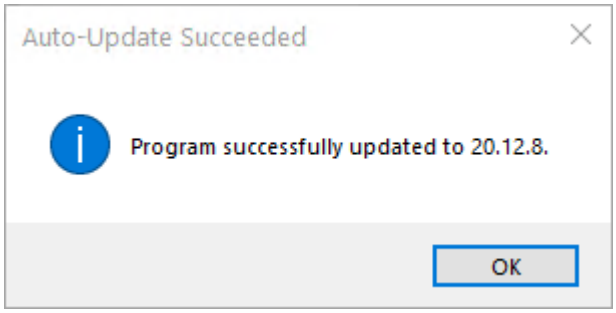

Windows will then ask if you want to allow the TaxColl2k setup program to make changes to your computer. Click [Yes]:

The update program will run without requiring you to click anything:

When it's done, you will see the following confirmation message. Click [OK] and you will be taken back to the Main Menu:
